

iCare-SCDSS Package

The iCare-SCDSS package is a complete management system for running any of the following types of childcare and early education programs: childcare centers, preschools, Montessori, agency funding management, after school programs; the system can be easily extended for drop-in service and camp management.

The package includes the following:

- iCare Software package with children, family and staff database and records management; children's enrollment, scheduling, attendance and contract billing management; staff database with scheduling, attendance and time-card management; accounts receivable management and electronic payment processing; messaging to parents and staff; and report making and MIS tools
- A desktop computer with monitor, keyboard, mouse and Microsoft Windows Operating System
- Open Source Office Productivity Software with iCare compatibility; includes word processor and spread sheet programs
- A Keypad (data terminal) with 4 line by 20 character LCD panel for attendance and messaging
- Support service and training

What this package will do for you

This is a complete operations management system that will allow you to achieve the following:

- Enrollment management
- Control on billing and money collection
- Real-time child-teacher ratio control
- Integrated staff and children's scheduling
- Better recordkeeping and audit trails
- Staff time-clock and time-card management
- Funding agency billing and invoicing (with co-pay management)
- Family demographics and provided services reporting for funding agencies
- Messaging for parents and staff
- Better managerial controls through reporting tools
